

# Eugene Wigner Colloquium

*joint event of GRK 1558 and SFB 910*

## Prof. Dr. Matthias Weiss

Universität Bayreuth

### “Organizing living matter - From molecules to cellular structures”

The talk will give a brief (and incomplete) tour of phenomena associated with the organization of living matter on several length scales. In particular, we will discuss diffusional motion and biochemical reactions in crowded biological fluids, the subsequent emergence of organelle-like structures, and the arrangement of cells during early embryogenesis.
